Subject: Appreciation note on Completion of My New Home Construction Work

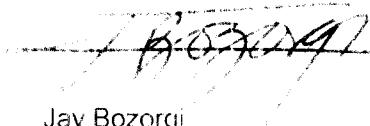

Dear Lucas,

I wanted to write this letter to express my deepest appreciation for the work well done on the construction of my new home in San Jose. The completion of this project in just less than 9 months was truly our life long dream coming true. During this process, I had a chance to get to know you personally better than before. I now understand you as a perfectionist and your passion for seeing a work done thoroughly. It is a joy for us to live in this house today and we all owe it to your professionalism and dedication to your work. Every corner of the home reminds us of our joyful involvement with you and your team. Whether it is the gorgeous gourmet kitchen or fine detailed fire places.

I also wanted to thank your crew for following your footsteps in carrying out their responsibilities. As I had mentioned to you a few times in the past, I had never seen such courteous and hard working construction crew to that date. As much as everyone is afraid of construction work for the troubles involved in the process (and rightfully so), it was a joy for me to see how smoothly this process went through and got completed on time and per your initial budget estimate. This was indeed a joyful and pleasurable journey to experience in an unkind and unfriendly business environment that we all know of. And it is all owed to your professionalism, dedication, and high individual standards.

Please keep a copy of this letter for your records as a reference to pass on to any future potential clients. I will also be more than happy to talk to or meet with anyone to elaborate more on your work well done.

I wish you all the best

Jay Bozorgi
